Dave Gardner presented an update on the proposed Town Park parking lots with measurements and diagrams to show what spacing would look like for parking lot A. Dave visited the County's Traffic Engineering Department and obtained locations of Castle Rock parking lots similar in size and shape to use as examples for spacing and measurements. Dave also took measurements along Wilcox Street in downtown Castle Rock to collect data on angle parking for the Park Road. Matt recommended presenting this information to the Parks and Recreation Board and reach a common position for making a recommendation to the town council at the next council workshop.

Dave said he would gather more information for the park road parking.

Matt briefed the board on the campground meeting on Monday and recommended EDAB stay in contact with Meme Martin regarding progress.
